

**Technological Educational Institute (T.E.I.) of Athens**  
**Faculty of Technological Applications**

## Overview

The Department of Biomedical Engineering of the Technological Educational Institute of Athens was established in 1985 and is the only academic institution in Greece providing undergraduate education in the field of biomedical engineering.

Studies cover the field of biomedical technology and subjects delivered concern the areas of mechanical, electrical, electronic and computer engineering, biomedical instrumentation, and medical physics. The curriculum also includes subjects in medicine, management, and economics.

Graduates find employment in biomedical industry, hospitals, and clinics, in both the public and private sectors. About 10% of the graduates follow postgraduate studies at an M.Sc. or Ph.D. level.

Our Department organizes a graduate program at the MS level entitled: **Advanced Systems and Methods in Biomedical Engineering**. Moreover, it is involved in delivering postgraduate courses in cooperation with two Greek Universities: (a) **M.Sc. on Information Technologies in Medicine and Biology**, with University of Athens (<http://itmb.di.uoa.gr/indexEng.html>) and (b) **M.Sc. on Medical Physics**, with University of Patras (<http://www.physics.upatras.gr/index.php?lang=en>). A number of our graduates have also currently pursuing or have successfully received Ph.D. degrees.

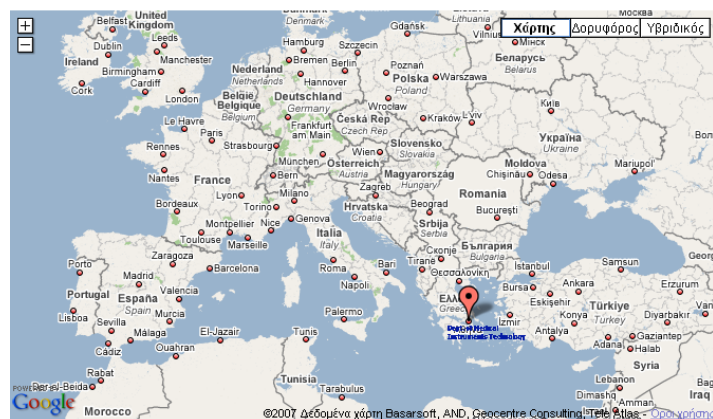

## Contact:

**Secretary of department**  
**Mrs. P. Thiakou**  
Tel.: (+30) 210-5385303  
E-mail: [bme@teiath.gr](mailto:bme@teiath.gr)

**Head of department**  
**Prof. I. Kandarakis**  
Tel.: (+30) 210-5385387  
E-mail: [kandarakis@teiath.gr](mailto:kandarakis@teiath.gr)

**Erasmus program coordinator**  
**Assistant Professor D. Glotsos**  
Tel.: (+30) 210-5385375  
E-mail: [dimglo@teiath.gr](mailto:dimglo@teiath.gr)
